

The Answer is Simple.

The V-RAM
By-Products Pump

The affordable By-Products Pump for your tough applications!

The newly revised V-RAM Pumping Systems are specifically engineered for your *rendering and processing application*. We revised this pump to meet your needs, eliminating unnecessary features while maintaining V-RAM's high standard of quality and performance. The result: **A LOWER COST PUMPING SYSTEM.**

We offer the widest and finest line of piston pumps in the world for pumping difficult materials. You are now able to eliminate augers, messy conveyor belts and have an enclosed pumping system at a low price.
